PALCO CALF "ROPER" TABLE

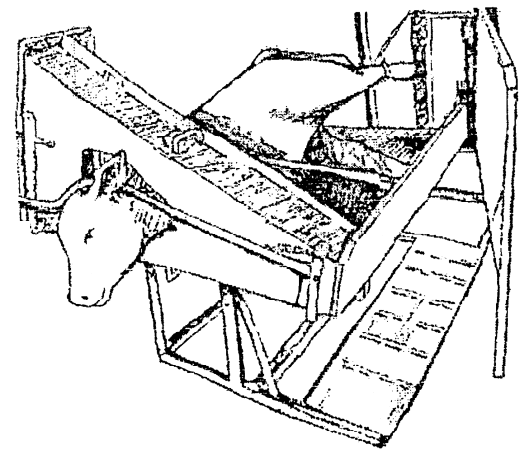

The Only Table Designed for Calves!

The Calf "Roper" Table makes branding, dehorning, castrating and vaccinating a safe and easy operation for both the calf and the handler.

Cattlemen can save countless dollars in time and effort with the speedy operation of this calf table.

The calf enters through the rear gate. Head and shoulders are secured quickly with minimum stress to calf. With the calf tilted on its side, ROPELOCK secures the hind legs. When the side door is open, the operator has complete access to the calf.

- HRated for calves up to 450 pounds
- HSpecifications: 87" long, 40" wide, 60" high (50" high without handles)
- HSide door controls and locks rear door
