

HORSE HANDLING EQUIPMENT

Portable Horse Stalls

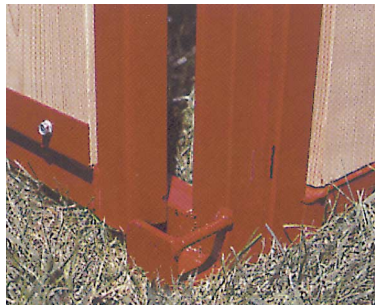

Professional horsemen know that quality portable equipment needs to be durable and practical. That's why so many choose portable horse stalls and accessories from Palco.

- Constructed of heavy-duty 1 1/2 inch steel frame tubing, Palco panels stand up to the toughest conditions.
- The freestanding design of Palco portable stalls makes them ideal for any exterior or interior setting.
- Available in 10-foot and 12-foot lengths.

Horizontal top bars, vertical top bars, or solid wood panels available.

Standard roller-mounted sliding door on all stalls. Swing doors also available.

Overhead latch locks sliding door open or closed.

Meeting the Standards of Today's Horseman
