

# PANELS & ACCESSORIES

**Count on Palco for superior strength and durability.**

All Palco cattle handling equipment is easy to set up and use. Operating controls are centralized so one person can handle the animal and the equipment.

## Corral Panels

- Seven bars, all 1 1/4-inch square tube.
- Secure panel interlocking using standard upper attached drop pin.
- Mitered upper corners for added strength and safety.
- Loop leg on both ends.
- Three sizes available: 8', 10', and 12'.
- All panels are 5' 6" tall.
- Supports welded between bars.

## Heavy-Duty Walk-Through Gates

- Heavy-duty two-inch square tube main frame.
- Quick and easy access via standard slam latch.
- Freely swinging removable gate.
- Four sizes available: 4', 8', 10', and 12'.
- The fullest complement of interlocking connectors.
- 5-ft. walk-through openings.

## Fifth-Wheel Panel Carrier

Makes transporting panels quick and easy.

# Add More Capabilities to Your Palco Equipment

## Alley Ways

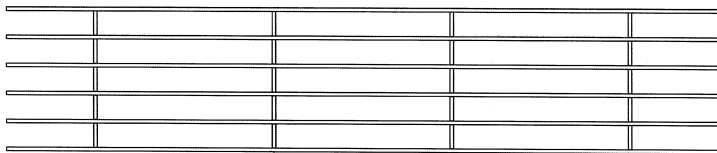

### Alley Frames

- All moving points glide easier utilizing Nylatron products.
- Interchangeable brackets on frames allow one frame to be used in various positions.
- Two-inch, 14-gauge square tubing throughout.
- Infinite and secure adjustment through the use of an adjustable screw.
- No moving parts within six inches of the ground.

### Adjustable Alleyways

- All 1 1/2-inch square tube.
- Pre-punched for Alley Can't Back.
- Alley adjusts from less than 15 inches to 28+ inches.
- 8' and 16' sections.

### Continuous Fence

For building custom fenced-in areas, Palco offers continuous fence. Available in 20' or 24' sections, this six-bar fence is 48" tall and is built of 1 1/4" square or round.

*Specifications and design subject to change without notice.*

*Palco offers a full line of livestock equipment.  
See your dealer for details.*

### Y-Sort

Designed to fit anywhere in the alleyway, allowing you more options on when and where to sort stock.

### Can't Back

Palco Alley Can't Backs work to prevent alley and chute congestion by keeping cattle moving forward. Lighter and more responsive than a full gate.

### Headtable

When you need complete head immobility, the Palco Headtable is the ideal option for treating pinkeye, tagging ears, ringing noses, dehorning, or any other minor head operation.

Head chain and nose bar are standard equipment. (Weight: 40 lbs.)

### Salt & Mineral Feeder

Make sure your cattle get the minerals and salt they need with the Longhorn salt & mineral feeder from Palco. The Longhorn holds four blocks, or 200 lbs., of product and stands up to the rigors of your feedlot because of its durable construction and wide stance.
